***Re: JPMorgan Chase Board of Directors ESG Marketplace Manipulation***

Dear Board of Directors:

xNY.io - Bank.org is concerned that perhaps the JPMorgan Chase Board of Directors are engaged in exploitation of more than \$100B of ESG asset default liabilities, across international regulatory arbitrage structures, while headquartered in Manhattan. As a global leader in digital asset innovation, xNY.io - Bank.org has reason to believe in the

---

JPMorgan Chase Board of Directors' engagement of ESG marketplace manipulation, risking insolvency of your ESG portfolio.<sup>1</sup>

- Understand, JPMorgan Chase forecasts \$200B of ESG asset exposure by the end of 2022. xNY.io - Bank.org fears your Board of Director ESG insolvency risk is family to JPMorgan Chase's five count felony reputation in New York banking.<sup>2</sup>
- Furthermore, xNY.io - Bank.org's vision for New York digital asset innovation forecasts JPMorgan Chase Board piracy of cross border ESG regulatory arbitrage structures designed adversarial to the United States of America.<sup>3</sup>

xNY.io - Bank.org references your *2021 Environmental Social and Governance Report*<sup>4</sup> totaled \$117B of ESG Development Funding from New York to Caribbean and Eastern European accounts. JPMorgan Chase is now exposed to near quarter trillion dollar ESG default risk by the end of 2022. xNY.io - Bank.org digital asset innovation simply will not sponsor JPMorgan Chase Board ESG manipulation void of director insurance(s).<sup>5</sup>

## Board Directors Who Manipulate Environmental Governance

As “green values” are still being defined by corporations around the world, public attention is playing a major role in holding corporations accountable for mistreating ESG investment(s).<sup>6</sup> xNY.io - Bank.org is calling for JPMorgan Chase Directors to be held responsible for misapplication of ESG funds. Especially as your company may go into insolvency and there is no capital left due to mismanagement and misappropriation.<sup>7</sup>

- Whatever the case maybe, xNY.io - Bank.org notes that JPMorgan Chase Directors can expect growing scrutiny on ESG default risk disclosures to prevent fraud.<sup>8</sup>
- New York digital asset history will be coined by pioneering ESG purity, not JPMorgan cross border regulatory arbitrage market manipulation.<sup>9</sup> xNY.io - Bank.org environmental governance suggests high JPMorgan Chase ESG default risk.<sup>10</sup>

The Securities and Exchange Act was designed to protect ESG market manipulation in the United States. JPMorgan's \$200B ESG market default risk is predominantly a Caribbean marketplace manipulation liability. Your ESG insolvency forecast signals likelihood of substantial consequences to New York and United States market sanctity.<sup>11</sup>

xNY.io - Bank.org has made **125 highlights** to *Managing Regulatory Arbitrage: A Conflict of Laws Approach*<sup>12</sup> for JPMorgan Chase Board of Director guidance disclosing our logical approach to your potential ESG insolvency risk. xNY.io - Bank.org international digital asset governance architecture is strong and resilient.<sup>13</sup>

Respectfully yours with anticipation,
