Re: Potential SpaceX Interlocking Directors' Intent to Manipulate Markets

Dear SpaceX Board of Directors:

From our New York headquarters, xNY.io - Bank.org, PBC embodies the notion that rather than a merry-go-round, the process of change and innovation is like a slide.¹

Today's memo aims to notify the SpaceX Corporation of concern of potential market manipulation that could impact cross-border digital asset innovation, free speech in the United States of America, the global ESG economy and Moon exploration. We do not see this as a stereotypical democrat versus republican battle (as Mr. Musk alludes). We

see this as a risk arbitrage matter for xNY.io - Bank.org's profit (subject to regulatory approval).

Some may argue a scheme to leverage the protection of "free speech" has led to Twitter deal advisors attempting a \$44B LBO market manipulation exercise.² Further cause for reasonable concern is warranted if similar intent is at play in the form of Tesla's ESG scam claim.³ xNY.io - Bank.org indicators signal risk of possible intent to manipulate public and private markets prompting clarification of the SpaceX Corporation's intent concerning Moon exploration and exploitation as a ESG digital asset vault.⁴

To be very clear, SpaceX directors should understand xNY.io - Bank.org's work to protect cross-border digital asset innovation was born before Twitter's prospective LBO.⁵ Our concern specific to the intent of Twitter's LBO deal makers is party to our work in New York to usurp Goldman Sachs and JP Morgan Chase board directors who may be potentially engaged in similar market manipulation referenced here:

3. xNY.io - Bank.org's work also includes research into oil and nickel marketplace manipulation as an ESG concern.⁸

The Twitter LBO includes Goldman Sachs and JP Morgan Chase operating as deal advisors. As referenced above, claims of Twitter robot scams and claims of Tesla ESG scams display a pattern of questionable intent. xNY.io - Bank.org asks SpaceX to clarify your board's intent concerning the Moon and any connection to USDD (now in Moon phase).⁹ SpaceX directors may agree that the Moon can also be defined as one of the most valuable ESG digital asset vaults known to modern humanity.¹⁰

Protecting the Moon from exploitation is fundamental to Space exploration.¹¹

SpaceX is party to any potential Twitter deal maker advisors that may exercise questionable intent risking the Moon's ESG vault potential.

xNY.io - Bank.org is concerned with interlocking directorate syndicates that include SpaceX, Tesla, PayPal, Goldman Sachs and BitGo. This setup breeds a galaxy of third and fourth party risk(s)¹² at the demise of pure cross-border digital asset innovation.¹³

Twitter robots are not the focus of the Orlando Police Department Pension Fund, who suggests that Twitter's LBO is suspected of questionable intent as potentially illegal.¹⁴

- Mr. Musk's ingenuity as an entrepreneur is historic and greatly respected as a model inside our organization. As a Gates Scholar and Blockchain Scholar holding international law distinction(s)¹⁵ The concept of the Moon being an ESG digital asset vault is logic USDD seemingly embodies.
- For obvious reasons, we seek SpaceX's board to confirm if the intent behind your CEO's Twitter LBO and Tesla ESG claims and if SpaceX is party to a USDD type matter given your syndicate's close association with USDP.¹⁶

xNY.io - Bank.org kindly asks the SpaceX Corporation board of directors to respond within 15 days of receipt of this correspondence. Default in the form of no response within 15 days is not an extortion technique on our part. Rather, it is a design benefit in disclosing our intent post 15 days to ask for approval to engage New York's False Claims Act in response to SpaceX, Tesla, PayPal and Meta interlocking directors potentially engaging in digital asset marketplace manipulation (exemplified by USDP and USDD) that may exploit Space and Moon exploration at xNY.io - Bank.org, PBC's overall expense.

Respectfully yours,
